# FREEDOM**ATLANTIC**

USB-C to PRC-163 ODU 12-Pin PD Cable

DESCRIPTION

Designed to run in a slick configuration, this cable runs from any Type-C EUD directly to the top or the side of a PRC-163. Set to maximize runtime, this cable will efficiently and effectively maintain a data connection between a PRC-163 and TE EUD using proprietary power management electronics. Allows ATAK users to run EKDU to allow full control of the 163.

| Part Number | S.PCR.P012A.30.PD-FER1 |
| Export Classification | ECCN 3A611.X |

KEY FEATURES

- Optional configuration of type C interface between 100mA to 2A power output.
- Adjust charge rates real-time using PD protocol messaging.
- Real time power role swapping.
- Reconfigurable USB Type C interface: swap between host and peripheral modes.

CONFIGURATION OVERVIEW

EUD ADAPTERS

Juggernaut™ IMPCT
Samsung Galaxy S20

Juggernaut™ OPRTR
Samsung Galaxy S23 or Xcover Pro6
